

Careers

Work with a firm that believes in developing the potential of every individual, supporting everyone's professional and personal growth, while emphasizing the importance of teamwork.

We invest in our young associates and help them grow their careers with the Firm. Each intern and pupil is accepted with the aim of eventually welcoming them as associates. We are proud to say that a significant number of our senior partners in our Singapore office have done just that—they joined as pupils, built successful careers at the Firm and are now mentoring our younger lawyers and helping them do the same.

As one of Singapore's oldest and leading law firms, our success is only made possible with the tremendous support and teamwork of our lawyers and professional staff. We are always on the lookout for talented and committed individuals and welcome applications for all levels of legal and other professional positions.
