

Overview

Rely on our Construction practice—experienced in all methods of dispute resolution: litigation, arbitration, adjudication and mediation—to provide the full range of legal services in the area of construction and real estate law.

You will be supported by an experienced team during every step of the process, with legal counsel and advisory services from the inception and structuring of projects to contract administration and dispute resolution, including contract drafting for various procurement methods and consultants' agreements, as well as advice pertaining to environmental, land and building control laws.

Benefit from a team comprised of practitioners with a sound legal and commercial understanding of the various complex issues involved in building and construction projects who have distinguished themselves in their successful handling of significant high profile cases, including the inquiry into Singapore's Nicoll Highway collapse.

Whether your business is local or global or anywhere in between, leverage the talent of your team—who are supported by colleagues in more than 50 countries around the world and are ready to assist you around the corner or around the globe.
