

IP Contracts, Assignment and Licensing in Singapore

Overview

Our IP Contracts, Assignment and Licensing practice provides you with a full service team providing complete compliance advisory and support capabilities.

Wherever you are in the process, rely on our team to provide you with the entire scope of services relating to IP compliance—identifying and valuing intellectual property assets through an IP audit, strategizing and developing an IP protection plan, devising internal procedures concerning trade secrets, attending to the local and international registration of trademarks, patents and designs, and devising IP inventory systems.

We frequently conduct training workshops and seminars to support your understanding of intellectual property law and good practices.

Key service areas:

- Enforcement of IP rights and remedies
- IP audits
- IP protection plans
- Registration of trademarks, patents and designs

Benefit from a truly global team, with colleagues in more than 50 countries around the world, for advice on cross border protection actions and oversight of multi jurisdictional enforcement actions.
