

Overview

Work with a Trade, WTO and Customs team that helps you develop and implement innovative strategies to keep you ahead of the curve.

We pride ourselves on our deep understanding of all the commercial issues involved in all trade and commodity finance activities important to your business, and we provide services that cover the entire commodity trade value chain—regularly working with producers, distributors, traders, borrowers, lenders or government agencies.

Our practice includes security documentation, risk participation, insurance matters, as well as financial instruments designed to mitigate credit and political risk. We advise on various types of trade finance facilities, including factoring, purchase order financing, pre-export and post-shipment commodity financing, counter trade and letters of credit.

Our key services include:

- Commodity financing
- Compliance and regulatory advice
- Credit facilities
- Factoring
- Risk management and participation
