

## Starboard: Accolades: Dentons ranked by Global Arbitration Review as one of the top 20 international arbitration law firms

April 23, 2019

Starboard is pleased to announce that at a charity dinner organized by Global Arbitration Review (GAR) in Paris on 4th April 2019, Dentons' international arbitration practice was once again distinguished as part of a small group of firms leading the international arbitration market, known as "the GAR 30". Of the 30 firms identified, Dentons appears in the top 20.

Firms are assessed and ranked by GAR after considering set factors such as the number of hearings conducted, the size of claims handled, the importance of matters handled, client reviews and peer review.

Dentons is the only firm in the top 20 with a dedicated global maritime practice. For recent news on maritime arbitration, see London arbitration figures. To view the Dentons global shipping brochure click [here](#).
